PLUMAS CITY.

THIS flourishing town needs no puffing, for there can scarcely be one having been in California one month who is ignorant of the important stand Plumas is to take among her sister townships. Being located so immediately in the midst of the rich mines of Bear river, Dry creek, Rough and Ready, Gold river, Yuba and Deer creek. The rich diggings of the Bear river, just discovered, are within fourteen miles. To all these mines the roads are remarkably level, being over prairie land. The finest red brick clay is there in abundance, and timber to last for ages. Is situated on high land and beyond the possibility of overflow. Ninety-nine of the hundred who cross the plains this year will pass by Truckee river, and pass directly through Johnson's Rancho and Plumas City, where the richest soil and finest gazing land in the world is found. There is every inducement for traders to visit this town for the reason above named, and trade has taken an active start there, and already, although but five weeks since the first building was erected, there now are some twenty large frame buildings finished or nearly so, and occupied for merchandising, hotel, &c., as also as many tent houses.
For the information of those just arriving in the country, the subscribers would state that Plumas City is situated on the east banks of the Feather river, about two and a half miles below Hock Farm, but on the opposite side, and seven miles above Bear river. All the steamers of light draught can run to this point the year round, and without doubt must prove the head of steam navigation through the summer and fall months. In the winter and spring, sail vessels drawing ten to twelve feet water, have no difficulty in navigating as high up the river as Plumas, when close along the banks in front of the town all winter could be found 16 to 22 feet of water. There are already over two hundred persons interested in this town, and increasing daily. Teams and horses are in readiness always to convey miners and their goods into the interior, at the lowest rates. The subscribers have erected their storehouses, and are storing miners' trunks and chests for 50 cents per month.
The proprietors are not anxious to sell to speculators, but to actual settlers, who will find liberal inducement.
G. H. Beach,
San Francisco, May 22. cli

ROUTE to the TRINITY MINES—Gentlemen—Having just returned from the Trinity diggings, we give for the information of the public a brief description of the road: From Sonoma to santa Rosa, 17 miles, thence to the rancho of Moses B. Carson, 18 miles; from Carson's to the head of the east fork of Russian river, 87 miles: thence to the south fork of the Trinity, 30 miles; from the south fork to the Trinity, 32 miles. There is a good [illegible] from Sonoma to Russian river, [illegible] were too high for working the bars when we left, but the miners were in excellent spirits, though averaging only about $15 per day; the large sums realized last year auguring richly for the profits of the present adventurers when the river falls. Provisions were cheap for the Trinity—flour one dollar per lb. The miners are about 110 miles distant from the sea coast. No practicable pack road to the bay had been discovered at the time we left. We neither saw nor heard of any sickness among the miners. It is believed that, owing to the purity of the water and the sea breezes, the Trinity mines will be exempt from fever and ague, and the other diseases common to the mining districts. No evidences of hostility have been evinced by the Indians. Respectfully,
E. D. Shirland,
J. H. Fine.

REMOVAL—Jackson & Shirley, wholesale and retail dealers in crockery, glassware, wines, liquors, groceries and miners' tools, &c, &c, have taken the store on Pacific st, a few doors below Kearny, recently occupied by Messrs. Whale & Bunting, and they solicit an early call from the trade and their old customers, assuring them that their loss at the late disastrous fire will not prevent their endeavor to sell at or near old prices, notwithstanding the exorbitant charges current in the market; and their assortment will be gradually increased to supply all demands.
When orders are accompanied by remittances, they will buy goods for 10 per cent commission for the upper towns, giving the benefit of their extensive knowledge of the market and shipping carefully, as directed. Goods received on storage at moderate rates. Consignments of goods or cargoes will meet with every attention. References to Edw'd E. Dunbar, Esq, California Bank; J. B. ☞ A MEETING of the Democratic Executive Committee will be held this evening at the usual place, at 8 o'clock, by order of F. D. KOHLER, Pre'st.

BEN. L BERRY, } Secretaries.
HUGH C. MURRY, }

Punctual attendance particularly requested.

DAILY PACIFIC NEWS.

J. WINCHESTER.....EDITOR.

Tuesday, June 4, 1850.

Mr H. Chafee is the authorized collector of this establishment, assisted by Mr. B. E. Holland.

DEMOCRATIC EXECUTIVE COMMITTEE.—A meeting of the Committee is called for this evening, at which punctual attendance is requested of all the members.

SAN JOAQUIN CITY.—Our advices from this place are exceedingly flattering, as to its continued increase in business and population. From its central and eligible situation, in the midst of a rich grazing and agricultural country, and with excellent roads to the mines at all seasons of the year, it cannot fail to become an important town. It is probable that a mail line will soon be established from San Jose to San Joaquin City, through the Buenos Ayres pass, by which the distance is reduced from 58 to 32 miles, over a good road. The line will be continued to Sonora, a further distance of 48 miles, by way of Empire City, on the Tuolumne. A plank road is being constructed from San Joaquin City to the mines, commencing on the opposite side of the river. There is at this point one of the best ferries in the country, and the main line of travel from the lower part of the State through the Pacheco and Buenos Ayres passes, leads to this city.

In the immediate neighborhood of San Joaquin City, are silver mines of exceeding richness, yielding 70 per cent of pure metal, and near the town is to be found most excellent brick clay. The mineral springs of Buenos Ayres are about ten miles distant, in the edge of the Contracosta range. There is regular steamboat communication between this city and San Francisco twice a-week.

ACT IN RELATION TO THE IMPORTATION OF CONVICTS.—In another part of our paper will be found the Act passed by the Legislature, designed to protect the State from being deluged by the importation of a class of persons whose presence may be regarded as a serious evil, and to take effect after thirty days from the 17th of May last. Its operation will undoubtedly be beneficial in its results.

EXPRESS TO SACRAMENTO.—There are several Expresses between this city and Sacramento, some of whom are supplied by us regularly with papers for the up river press, but never a copy in return reaches us till a day or two after publication, when too late to be of service. With the early prospect of a daily mail on this route we hope to be better accommodated in the receipt of intelligence from our enterprising sister city.

FROM STOCKTON AND THE SOUTH.—We are indebted to Todd & Bryan's Express for the delivery of letters from our correspondents. If they will deliver papers, &c., on the arrival of the boat, we shall consider the favor much greater. Our printing office is open till midnight for the receipt of news.

TO CORRESPONDENTS.—We have a continuation of the interesting "Notes of a Journey through Lower California," from C.M.B, which we shall give in a day or two. We are glad to hear from him on all subjects, and we are sure the public will concur in the wish to hear from him often.

IMMIGRATION.—Within the past two weeks there have been some eight or ten arrivals from Sydney and other British colonies in the Pacific, bringing about seven hundred passengers, over two hundred of whom are females. We should much prefer a few cargoes of bright-eyed and blooming Yankee girls.

TEMPERANCE MEETING.—A meeting to-night for the purpose of completing a Temperance organization in this city, will be held in the Baptist Chapel, commencing at early candle light. Several speeches are expected, and from representations made to us by those who know, persons who go will be *treated*, not with liquor, but with eloquence and intellect.

WAVERLY ASSEMBLIES.—Subscribers are informed that Mr. C. C. Richmond has now ready the tickets and cards of invitation to these Assemblies, and he invites all those entitled, to call and receive them.

REMOVAL.—The Collector of the port has changed quarters. Those having business with the custom-house will find him in the brick building on California

The Indignation Meeting.

Quite a respectable meeting convened in the Plaza last evening, to take into consideration whether the *people* will consent to pay those who are called upon to devote their time to the public service, or whether it is not the bounden duty of the "city fathers" to "work for nothing and find themselves."

The chair was taken by Gen. Wilson, and our worthy friend W. J. Sherwood, with another, whom we did not know, were chosen secretaries. Animated speeches were made by several gentlemen, after which a committee of five was appointed to meet a similar committee chosen by the assemblage, which met in the afternoon, at the Merchants' Exchange; and a joint conference is to take place at Meacham's auction store, to draw up resolutions to be submitted to an adjourned meeting of the people on Wednesday afternoon, at 4 o'clock.

Excursion to the Farallones.

We beg the public to not all speak at once for tickets, entitling the bearer thereof to the rare pleasure of an excursion to the Farallone Islands, which is to be made on Sunday next by the elegant and commodious steamer Gold Hunter. The account given by us a few days ago, of the trip to that "gem of the Pacific" by a party of distinguished gentlemen, and the founding of a new city, destined to outrival all others in these latitudes, has created a curiosity to *invest* there, that nothing but an opportunity to "down with the *dust*," can appease. There will be a mustering of harpoons, and other implements, dangerous to the peace of the numerous tribes of sea lions that have held undisturbed sway for a period to which the memory of their oldest monsters "runneth not to the contrary;" and the baskets-full of queer-looking eggs, and other antiquarian curiosities, will not be few. As the number of *shares* in this new city is limited, early application is necessary. Price $20. (See advertisement.)

From the Southern Valley.

The Stockton Time of June 1, furnishes us with several items of intelligence from the South, a few of which we are only able to find room for to-day:

THE MINES.—A correspondent says—The gulches are becoming too dry to work with much success, and those around us are [illegible] well worked out. Hundreds are p[illegible]ing in every direction, leaving [illegible] place to work in upon the [illegible]er. There will [illegible] work done some days past the heat has bee[illegible] intense; on Tuesday the thermome[illegible] reaching 100 degs. Fahrenheit. At the same time, during all hours of the d[illegible], there has been a gentle and *refreshing* breeze from the north west. The evenings are cool and balmy, the thermometer ranging from 50 to 60 degs.—*Stockton Times June* 1.

An election took place on Saturday last for Justice of the Peace, in the place of the late Mr. Mc Clellan. Mr. Endicott was elected by a majority of 27 votes.

THE SONORIAN DISTURBANCES.—We are glad to learn that all active opposition to the tax is quelled, and law and order predominate.

☞ The following petition, which is now being circulated by a number of gentlemen for signatures, we find upon our table. We insert it as a matter of news:

To the Mayor and Common Council of the city of San Francisco:

Your memorialists would respectfully express to you our gratification at the efforts you have made for the abatement of certain public evils amongst us; and wishing further to see this good work of public reform carried forward, would represent:—

That, in the opinion of your memorialists, the open scenes of vice in our community present strong temptations to many, to the young especially, leading to the corruption of good morals; that they further cause an increased expense to the city at large, in the additional police provisions necessary for the preservation of order and the punishment of crime originating in them; and also that past experience has proved that such places do extremely hazard the property of our citizens:—

And your memorialists holding also that the existence of such places authorized or tolerated, is tantamount to the legalizing of a known wrong, and that such toleration and licensing is inconsistent with the proper office of legislation and government both:

For the above and other considerations which might be adduced, the said memorialists do respectfully and earnestly ask, that by your authority there may be caused an entire suppression of the evils we deplore, such as the public profanation of the Sabbath, bull fighting, cock fighting, gambling and liquor selling, if not by a direct prohibition which we consider most consistent and reasonable, than by such restraints and penalties as will amount to an entire removal of the evils complained against. And your memorialists as in duty, &c., &c.

QUARTZ GOLD.—The Stockton Times speaks of a mass of very rich gold bearing quartz having been quarried in the Mariposa region, weighing five hundred pounds. We are informed by Hon. Mr. Ogier, that these specimens were in *several pieces*, and not in one, as would be inferred from the *Times'* article.

Common Council.

BOARD OF ALDERMEN.

Monday evening, June 3.

The first business before the board was the ordinance from the board of Assistants, concurring to hold an election to fill vacancies in board of Alderment on the 17th June.

An ordinance was concurred in from the board of Assistants, creating a contingent fund of $5000.

The board of Assistants sent in an ordinance defining the duties of Comptroller, which was referred to Committee on Finance.

An ordinance was passed authorizing fifty buckets to be purchased for the use of the City Hall, and for repairing the pumps, &c. on the premises.

The Mayor announced by a message that he had signed the bill creating a special commission to examine the title of city property, also the ordinance regulating gaming tables, bar-rooms, &c., compelling them to close at midnight.

The bill authorizing the city to make a loan of $100,000, was sent back by the Mayor for a clerical correction; which being complied with, will become a law by his signature.

The City Treasurer sent in a communication in relation to the unsafe condition of the iron chest in his office; referred.

P. A. Brinsmade, sent in a petition to be appointed city printer; laid over.

The superintendent of public repairs sent in a number of bills for work performed and materials furnished, which were referred to the proper committees.

Ald. Minturn, from the committee on streets, reported against the petition of Lt. Duer for an appropriation to build an outside signal station.

The petition of Messrs. Beard and Trumbull, asking for contract to grade a certain street, was also reported upon adversely.

The proposition of the owners of the Phenix Exchange to let the city have that building for a Hospital, was disagreed to.

A petition was presented from J. V. Hollingshed for sexton; and from Wm. F. McLean to build powder magazine. These were referred to the proper committees.

Ald. Selover introduced an ordinance empowering the Mayor to receipt for all moneys due the city for public lands. Referred to the committee on ordinances.

The ordinance regulating the Police Department, came up from the Board of Assistants with amendments, which were not concurred in. The bill emanated from the joint committee on Police, Prisons and Health, and the Board of Assistants amended the ordinance by inserting fifty Police instead of seventy-five; the compensation to be eight dollars per day, and the Captain of Police ten dollars; and the members of Police to be appointed by the Common Council. These amendments were lost by a tie vote—3 to 3. Ald. Stuart moved that [illegible] intent by the mayor, on [illegible] from the length of time "between drinks," suggests to the Court the propriety of the Marshal's giving "Jemes" "a leetle" by way of mollifying his "feelins" and easing him gently down from his high strung position to an earthly atmosphere, suggesting the woful picture of "*delirium tremens*" as "Jemes" was evidently *nervous*.

Ald. Macondray tendered his resignation by letter, which after some discussion, was not accepted.

Ald. Minturn moved that the city ordinances be published in the San Francisco Daily Herald, which excited considerable discussion. Ald. Gillespie moved that the "Watchman" be also added to the papers now employed to publish the city laws.

On motion of Ald. Selover, the motion was laid on the table.

The board adjourned to Friday evening at 7 o'clock.

ASSISTANT ALDERMEN.

President Bartol in the chair.

The minutes of the preceding meeting being read and approved, a message from the Mayor was received returning certain ordinances with his approval; also, requesting the appointment of a joint committee to receive the books and papers of the late Ayuntamiento.

The petition of J. G. Pulis for the payment of a claim was presented by Ald. Botts; referred.

Ald. Wilson presented the petition of Mr. Brinsmade, asking the appointment of city printer; laid on the table.

Ald. Maynard from the Committee on Fire and Water reported back the ordinance requiring water buckets, &c., to be procured for the City Hall; passed, sent to the other board, approved, and passed finally.

Ald. Wilson offered an ordinance authorizing the City Treasurer to issue bonds without interest for the payment of debts due from the city previous to the first of June—these bonds to be received in payment of city dues, and to be redeemed at any time by money in the treasury not otherwise appropriated. Passed to a second reading.

The ordinance creating a contingent fund was returned from the upper board, concurred in.

The ordinance appointing the 17th of June for the election to fill the vacancy of Ald. Burgoyne, came from the other Board concurred in. Passed finally.

Ald. Botts offered a resolution that the salary and loan bills be published also in the Herald. Passed.

Ald. Maynard reported the Police ordinance with amendments, which was finally passed with additional amendments.

Ald. Botts from the Committee on Finance reported a loan bill, which was read a second time and ordered to be printed.

Adjourned to Friday evening at half past 7 o'clock.

SCHOOLS.—The government schools in the Sandwich Islands, number 426 Protestant and 101 Catholic; number of Protestant scholars, 16,407; Catholic scholars, 2,631.

☞ The Springfield Republican states that Mr. Orrin P. Wilson, of that town, had laid an egg on their table—a fact in physiology that needs investigation.

Recorder's Court.

"The City of San Francisco *vs.* Jas. Marsh," says his Honor, with his usual bland dignity. "Is Mr. Marsh in court?" Up rises at a knowing *beck* of the policeman a wreck of the *genus homo*, who asserts his identity by claiming said defendant as being himself in *propria persona*. With his eyes steadily fixed on the Judge, as unmovable as a statue, or as if attracted by some species of magnetism beyond his ken, "James Marsh" marches from the dock into the *statue quo* "made, had, and provided" for the preliminary examination of the b'hoys.

"And is it me yer being afther, yer Honor?" interrogatively enquires James aforesaid.

"Silence," says officer S—, who looks James into a state of nonentity. "Mr. Marsh, you are here before me, on a charge of drunkenness and common vagrancy; having heard the charge of the informant, what can you say in mitigation of your offence," says his Honor.

During the whole examination James, having put himself in the Bowery "attitude," rolled his eyes up in great mental abstraction, and to the looker on, is evidently musing on "Socialism,"—"Communism," — "Transcendentalism," — or peradventure is calculating the uncertainty of all things human, and the fickleness of the *queer* goddess *Fortune*—when at last recalled to himself by this weighty query of the Judge, he denotes his return to earth by a long drown out ejaculation—

"Sir-r?"

James is now informed of his inalienable right "to speak for himself," and putting both hands on the back of a chair *a la mode* some headed Lawyers, he delivers his experience as follows—

"And yer Honor would be afther knowing how I came here, and sure in faith, and is'nt that what I would be afther knowing myself, so I would. 'Tis all mystery you see, and did'nt I jist for the sake of ould acquaintance take a potheen of ould Ireland, and three for the sake of the counthry's welfare, did'n; I take another, and then for the blessed virgin's sake did'nt I take still another, and then besure I took a fourth potheen to clear the frogs from my throat and wash the sugar of the last down. And wa-s't the licker drugged, yer Honor? for I never seed the like, my head turned round and round as though some mother's son of a gun had struck me with a shillalah,—and then melting away I knew nothing, and here I am, a pretty son of ould Ireland to be guarded by these savagerous "Charlies," and pleading with yer Honor for marcy."

"That'll do, Mr. Marsh, I'll fine you five dollars, and put you five days in the station house to learn good habits," is the sentence of the court.

"And I'll be obliged to your Honor, for it's more than I could rasonably ask, and yer Honor will be afther having a nice time of it, as it is something James Marsh could never do since he left the bogs of ould Ireland.

The Attorney representing the interests of the body politic, in the humanity of his heart evidently appreciating

"Yes, yer Honor, and ain't I got the *delirums*, right now, and is it afther killing me, ye are?" and "Jemes" shook like an aspen leaf, or a feather in a gale.

"Step one side, this way, Sir," peremptorily spoke the officer.

"Och honey, and don't be afther being cruel with a poor man," and Jemes, casting his eyes far beyond the pale of mortal woe, soon fell into that deep sleep "where the wicked cease from troubling, and the weary are at rest."

WRECK OF THE "MARGARET."—The American whale ship "Margaret," Captain Fales, was wrecked on the 25th of February, at Huahine, one of the Society Islands. The vessel was going in, for slight repairs. A native pilot was taken on board, who most unfortunately run the vessel on the reef, the sea being smooth, weather pleasant and wind favorable. The "Margaret" had 2200 barrels of oil on board. It was sold at auction, Capt. West of the "eannet" was the purchaser, at $2 30 per barrel. They succeeded in saving 2100 barrels of the oil. The vessel was almost a total wreck, being sold for a small amount. Captain West was the purchaser, who freighted his vessel and sailed for the United States. Capt. Fales and family embarked on board the Jeannet. Some of the crew left for Tahiti. Mr. Spooner, 1st officer, and Mr. Jordan, 2d officer, have arrived in Honolulu, passengers, per French vessel.—[Honolulu Friend.

COMMERCIAL NEWS.

SAN FRANCISO MARKETS.

Monday evening, June 3.

The large shipment of gold dust—over two millions of dollars—per last steamer, is the common topic of conversation in commercial circles. Notwithstanding the large amount taken away, it is gratifying to observe, at the banking houses and elsewhere, that it continues to flow in abundantly, more being offered for purchase than for two or three days prior to the sailing of the steamer. Under these encouraging circumstances, greater activity is apparent in every branch of business. Capital being abundant, rates of interest have declined still further, and considerable amounts are remaining without investment; other capitalists are willing to receive 5 per cent per month, on unquestionable paper. Real estate, in good locations, as well as water lots, on good thoroughfares, are in demand. Sale of a lot between Apollo storeship and central wharf, 30x70, brought $10,000.

Flour continues dull at 11.25 for large quantities. A large lot of potatoes were sold to-day at an average of 13½ cts. It is currently reported that certain members of the Common Council, previous to the passage of an act requiring each house to be provided with six water buckets, sent round and caused all the buckets in town to be purchased for their benefit! We give the story for what it is worth, knowing nothing of its truth.

The Chamber of Commerce have provided very neat accommodations in the building of D. L. Ross, Esq., montgomery st, where the meetings of the Board of Trade, will shortly be held.

STOCKTON MARKET, June 1—Flour is a shade lower, bringing $8a8.25. Hams at 35c. Barley has advanced. Large stock of lumber on hand, selling at $70a120; frames at auction $60a90 per m ft. Bread 12c; coffee, scarce, 35c; apples 45c; peaches, 40; pork, mess, 37.50a40, prime, $25; lard, $45a50; butter, 95a$1; rice, 10a12; sugar, crushed loaf, 55a65c, brown, 30a35. Other articles without much variation.

VAN VOORHIES, Esq., Secretary of State, and in conformity with instructions, we hereby notify the Clerks of the various counties of this State, that the Pamphlet edition of the Laws of California will be distributed from the office of the *Pacific News*, as rapidly as the same shall be issued from the press. The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No captain or master of any vessel, or any other person or persons shall knowingly or willingly import, bring or send, or cause or procure to be imported, brought or sent, or be aiding or assisting therein, into this State, by land or water, any felon, convict or person under sentence of death or transportation, or any other legal disability incurred by a criminal prosecution, except for treason, or who shall be delivered or sent to him from any prison or place of confinement in any place without this State.

EMPIRE CITY.

FOR Sonorian Camp, Wood's Diggings, Sullivan's, Hawkins's and Don Pedro's Bars, head waters of Tuolumne, Mercedes, and Mariposa Rivers; also, to head waters of san Joaquin and King's River FREIGHT OR PASSAGE TO EMPIRE CITY, TUOLUMNE. DURFEE & TOWNSEND have established a daily line of sailing vessels from san Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the san Joaquin, and is not only accessable by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, san Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850.

cxxxii tf Durfee & Townsend.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Cresent city, and adopt one quite as appropriate, if not so beautiful.—Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M Rowlett, Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E Perrine, J. B. Lattimer.

NEW DAILY PAPER.

THE PUBLIC BALANCE.

"*Balance*, An impartial state of the mind in deliberating; or a just estimate of the reasons and arguments on both sides of a question, which gives to each its due *weight*, or force and importance.—*Noa's Webster.*

THE subscribers will issue a daily morning paper in the city of san Francisco under the above title, on or about the first week in September, devoted, as its name imports, to a just, faithful and impartial review of every thing connected with the interest and prosperity of the people.

It will be unshackled by alliances or dependence upon cliques or parties, and, standing upon a basis of perfect independence, will deal with all questions that arise upon their own merits

In view of the rapidly increasing population of san Francisco and the State generally, and the desire for early information upon local, as well as foreign topics, there exists a large field in California for newspaper enterprise. In entering this field the subscribers will bring with them years of experience in the business, as well as the necessary means for upholding it, and they trust, for success, to the character of their paper and its usefulness to the community.

Michael T. O'Connor will leave san Francisco for New York by the steamer of the first of June, for the purpose of superintending the transmission via the Isthmus of the newest and most improved materials, steam presses and machinery, which, when arrived at san Francisco will compare favorably with any printing establishment on the American continent.

Aware that the usefulness of a public journal is much advanced by extensive circulation, the price of the paper will be but half a dime for single copies, or fifteen dollars per year, when mailed to subscribers in the country.

Newsmen and periodical dealers, and persons desirous of obtaining agencies for the Public Balance, can direct their letters (postpaid) to box 959, Post Office, san Francisco. [clvii tf] M. T. O'Connor & co.

And RABE falls in height of all his pride.

Of all the *Drugs*, and every thing
That *Richmond* keeps on hand, to sell
At prices that will suit you well.

Doct. Rabe "says to all," come down,
And view the stock he has on hand.
RICHMOND, Forever! says the town,
Has the choicest *drugs* in all the land.

Oh! Doctors! merchants! only stop, and think
What rhymes are coming; what a flood of ink,
When Rabe's poet shall appear, to spoil
His mammoth sheet, three hundred feet in coil,
With tales and details of all past reception,
And drugs, per Chesapeake, beyond "*conception.*
